

Puget Sound Water Quality Management Plan 2000

Table of Contents

Introduction 1

Programs:

Estuary Management and Plan Implementation	9
Puget Sound/Georgia Basin Shared Waters	15
Aquatic Nuisance Species	17
Contaminated Sediments and Dredging	23
Marine and Freshwater Habitat Protection	29
Municipal and Industrial Discharges	43
Nonpoint Source Pollution	55
Agricultural Practices	57
Forest Practices	61
Household Hazardous Waste	65
Local Watershed Action	67
Marinas and Recreational Boating	75
On-Site Sewage Systems	81
Pest Management	85
Shellfish Protection	87
Spill Prevention and Response	93
Stormwater and Combined Sewer Overflows	97
Education and Public Involvement	109
Laboratory Support	119
Monitoring	123
Research	127

Appendices:

Appendix A: Chapter 90.71 RCW—Puget Sound Water Quality Protection	131
Appendix B: Acronyms	137
Appendix C: Glossary	139

List of Tables and Figures:

Figure 1 The Puget Sound basin & shared waters	3
Figure 2 Puget Sound's population, 1991-2020	6
Figure 3 Relationship of environmental and program performance measures to programs in the management plan	12
Table 1 Approaches to watershed planning	68
Figure 4 Shellfish areas affected by pollution	88
Figure 5 Where does precipitation go?	98
